KODIAK®

COMFORT FIRST.

HOW DOES KODIAK HELP YOU TO PERFORM YOUR BEST?

IT'S SIMPLE: THROUGH ALL-DAY COMFORT.

The Kodiak® Comfortzone™ footbed is a premium, dual-density foam footbed which features inverted polyurethane diamond shapes that act to **DISSIPATE FORCE** during heel strike, while the supportive arch and forefoot **PROMOTE MOBILITY**. The OrthoLite® foam provides **LONG-TERM CUSHIONING** and **MOISTURE MANAGEMENT**, while the Kodiak® SOS Smell Out Science® treated topcloth **BREAKS DOWN ODOUR** causing bacteria. The hard working technology on the inside, matches the ready-for-work Kodiak protection on the outside. Who else works that hard? You do.

UNIQUE INVERTED DIAMOND SHAPE PLATFORM ABSORBS SHOCK FROM HEEL TO ARCH

DUAL-DENSITY FOOTBED IS TOPPED WITH ORTHOLITE MEMORY FOAM WHICH PROVIDES LONG TERM CUSHIONING AND MOISTURE MANAGEMENT

KODIAK® SOS SMELL OUT SCIENCE® TREATED TOP CLOTH BREAKS DOWN BACTERIA BEFORE ODOUR BEGINS

CONTOURED ARCH PROVIDES AROUND-THI-FOOT SUPPORT

LOOK FOR THE COMFORTZONE™ SYSTEM IN KODIAK'S GENERATIONS COLLECTION, AND MANY OTHER KODIAK PRODUCTS.

KODIAK® | WARRANTY POLICY

Kodiak provides a 6 month warranty against defects in materials and workmanship applicable from the date of purchase. Proof of purchase is required in order to exercise the warranty. If Kodiak determines after inspecting the product that a defect has occurred as a result of normal use, Kodiak will repair or replace the defective footwear. Any wear deemed as abusive, excessive or inappropriate may void the warranty. All unworn footwear is subject to the same warranty standards (6 months) as some materials used in the manufacturing of this product may deteriorate over time regardless of wear.

ASTM
TESTED

CSA GREEN TRIANGLE

The CSA Green Triangle indicates sole puncture protection with a Grade 1 Protective toe to withstand impacts up to 125 joules. Sole puncture protection is designed to withstand a force of not less than 1200 Newtons (122 kilos / 270 pounds).

CSA BLUE RECTANGLE

The CSA Blue Rectangle indicates Grade 1 protective toe without sole puncture protection. Grade 1 toe withstands impacts up to 125 joules.

CSA WHITE RECTANGLE

The CSA White rectangle with orange Greek letter omega indicates soles that provide resistance to electric shock. Such certified footwear contains a sole and heel design assembly that, at the point of manufacturing, has electrical insulating properties to withstand 18,000 Volts and a leakage current not exceeding 1mA for 60 seconds.

CSA YELLOW RECTANGLE

The CSA Yellow rectangle with a green "SD" and grounding symbol indicates soles are static-dissipative. The outer soles are made from an antistatic compound, capable of dissipating an electrostatic charge in a controlled manner. The test criteria are 10^6 to 10^8 Ohms. Note that SD footwear without toe protection will not have sole protection certified by CSA.

CSA SD+

The CSA Yellow rectangle with a black "SD+" indicates soles are super static-dissipative. This protection feature is similar to SD, except the test criteria are 10^6 to 3.5×10^7 Ohms.

METAL-FREE TECHNOLOGY

Kodiak® ROCKFIBRE® footwear is manufactured with a metal-free protective toe and puncture-resistant plate. Metal-free components are lighter than steel and provide better insulation against the cold.

KODIAK® SOS SMELL OUT SCIENCE®

- Innovative odor control technology.
- Beneficial microbes break down odor-causing bacteria.

ORTHOLITE® COMFORT FOAM

OrthoLite® comfort foam insole provides odor-fighting anti-microbial function, moisture management, and long-term cushioning.

VIBRAM

Vibram is the world leader in high-performance soling systems. We combine cutting edge sole designs with advanced rubber compounds to deliver optimum performance in outdoor, exploration, industrial and safety environments.

COMFORTZONE® SYSTEM

Dual density polyurethane and OrthoLite® comfort foam footbed treated with Kodiak® SOS Smell Out Science®.

COMFORTZONE™ LITE

Kodiak Comfortzone® LITE built with OrthoLite® Hybrid™, an Open Cell PU formulation that uniquely blends 5% recycled rubber and 15% production waste foam for a total of 20% eco-content, delivering uncompromised sustainable comfort and performance with less impact on the planet.
